Welcome

On behalf of the SAORC committee, welcome everyone to not only Rounds 3 & 4 of the 2024 South Australian Off Road Championships, but also to Round's 9 & 10 of the Australian Off Road Championships! We are back at a famous venue here at Kingston, we cannot thank Angus Vanderpeer and family enough for the use of this amazing property.

Helping bring these rounds to you over the weekend are the Green Triangle Enduro Club. Their small team has put on an enormous effort to mark out sensational tracks that will double as a X-Country on Saturday, and Sprints on Sunday. This is surely going to test even the fittest and strongest of riders.

This event can't happen without the help of a lot of other volunteers and to them we say a massive thankyou! Similarly, we thank all the officials and the ever professional AORC team for their efforts this weekend.

Cheers

Tristan and Sean Throup

On behalf of the Green Triangle Enduro Club I would like to welcome our competitors, teams and support crews.

A special thanks first up to our property owner Angus Vandapeer, Angus is an enthusiastic supporter of the sport and has been hosting Offroad competition at his property for as long as I can remember, his property, the access he offers along with his assistance and support makes these events seasonal highlights.

Thanks also to our local businesses offering significant support through their services and equipment, Limestone Coast Motorcycles, Envirogen Industrial Services and Bull Bros Earthmoving.

An extra special thanks to the tiny group of enthusiasts who put together the time and effort to present this event as you see it, every one of them with an enduro background and a level of energy that makes something very difficult somehow seem very easy, they know who they are.

This weekend's event has been put together through a collaboration between the Green Triangle Enduro Club and the SAORC.

We hope you enjoy the venue and the courses on offer. Our motivation has been to offer a bit of everything, we hope the rewards will come to the cautious technical competitor who is prepared to back their ability and ride smart rather than hard.

Good Luck, Keep safe and enjoy your ride. Joe Bunnik, President GTEC

****PROGRAMME TIMES SUBJECT TO CHANGE ON THE DAY AT THE DISCRETION OF EVENT OFFICIALS****

The Event

Cross-Country

Cross Country events will be conducted on a 15-30 minute marked course where competitors are required to race continuously for a minimum of 2.5 - 3 hours for seniors and 2 hours for juniors. Riders start as a class, each class separated by 1 minute intervals. A designated refuelling area is available and all refuelling and mechanical work is carried out in this area.. Juniors compete at different times to the above classes and the length of their competition will also vary. To be a finisher a competitor must have completed at least 75 percent of the laps of the winning rider in their class. The cross country format rewards riders with consistency and endurance.

Sprint Format

A sprint is run on the format of an Enduro special test. Riders complete as many heats of the course as indicated in the final instructions (or at the discretion of the Clerk of Course)

There will be an escorted sighting lap of the course prior to the commencement of the event. Times will be cumulative: the rider with the least accumulated elapsed time for each class will be the winner and so on. Start order will be seeded by the event marshalls on the day

The Course

All courses are a mixture of several surface types, with mostly sand, but some clay and rock as well. All competitors are to follow the marked course which is identified by arrows and bunting.

Two arrows adjacent on the course are GATE course markers ie. riders MUST ALWAYS pass between these arrows. Any slashed area IS the course, riders must not leave the slashed areas. We will maintain the course as much as possible but Riders MUST stay to the original intent of the course throughout the event, regardless of the condition of the bunting, any deviation from the intended course is a breach of these instructions. No deviation will be accepted. Any competitor found to have deviated from the intent of the course and gaining an advantage will be given a time penalty of a minimum 5 minutes up to exclusion for that heat, special test and or event.

There will be one X-Country loop and four sprint loops.
